## Car Lease Finance Application, Agency & Fee Agreement

This agreement on \_\_\_\_\_, between \_\_\_\_\_, (the Client) and Business Finance People Ltd (the Company) confirms the following;

It is understood that the Client wishes to mandate the Company to obtain car lease facilities in respect the acquisition of a \_\_\_\_\_, with approximate monthly HP payments of £.

The Company will undertake to liaise with respective local financial institutions to obtain competitive funding terms for the requested facilities. It will negotiate on the Client's behalf, and may approach more than one bank or financial institution to obtain the most competitive terms. The Client hereby authorises the Company to negotiate with potential funding sources for the sole purpose of obtaining requested facilities, and to divulge the Client's personal and financial information in this respect.

The Client also agrees to allow the Company to conduct UK, and any other credit searches, on their behalf in support of finance applications, and to disseminate information contained in these searches to relevant financial institutions, purely in support of mandated facility application work. The Company agrees, on a best efforts basis, to disclose to the Client any adverse client information that, in its opinion, could prejudice any finance application prior to submission.

The Client hereby agrees to pay the Company an arrangement fee of GBP1,100 plus VAT, in respect of introducing a lending source for this project. For the avoidance of doubt, this fee is only payable upon successful processing of the loan application, and the production of a valid offer. This fee will be due prior to collection of the vehicle.

The Client agrees that should the funding fail to proceed to completion after issue of a valid offer, due to the Client withdrawing from the application for whatever reason, or failing to provide information requested in the offer letter, the Client shall be liable for the full arrangement fee, which shall be due immediately.
